

RICARDO ESTEVES

FULL-STACK DEVELOPER

PROFILE

Software Engineer - Lisbon, Portugal

Dynamic and versatile software engineer, with a primary focus on front-end development complemented by full-stack proficiency. Known for blending technical expertise with a keen eye for user experience, I excel in creating engaging interfaces and architecting robust, scalable applications. Passionate about crafting software that seamlessly merges functionality with design, I bring a blend of innovation and practicality to every project. Seeking opportunities to contribute my skills and drive towards building exceptional digital solutions.

MAIN INTERESTS

With a focus on user-centric design and a keen eye for detail, I bring projects to life by combining my front-end expertise with a holistic understanding of back-end systems. My goal? To create software that not only works flawlessly but delights users at every click.

AREAS OF EXPERTISE

JavaScript, TypeScript, React, Next.js, Node.js, Tailwindcss

Front-end: Zustand, Redux, Context, TanStack Query, TanStack Table, Zod, Rest API's, Axios, Framer Motion, StyleX

Back-end: Node, Express, PostgreSQL, MySQL, MongoDB, Prisma, Server Actions, tRPC, experience with C#, C++, Python, Aws and Azure.

More: Firebase, Supabase, Appwrite, Jest, Testing Library, playwright, cypress, Upstash, Stripe, Jwt, OAuth, Webhooks, Websocket
